Q) How to configure Default route into Routers

OBSERVATION

- Created a topology with multiple Routers and switches
- Configured ip address and default gateway
- Configured ip address for interfaces
- Configured static ip route to Router 1
- Configured default ip route to Router 0 and Router 1, using command "ip address 0.0.0.0 0.0.0.0 next hop address"
- Pinged PC2 and PC3 from PC0
- Conducted a Simple PDU simulation
